Skilled in authoring **PRDs, BRDs, and FRDs**, coordinating 5+ cross-functional teams, and accelerating sprint delivery cycles by **15%**. Proficient in **SQL, Power BI, Python, Jira, and REST APIs** to monitor product KPIs, boost reporting accuracy by **20%**, and secure 100% defect-free UAT sign-offs.

CORE COMPETENCIES & TECHNICAL SKILLS

Product & Project Delivery: Agile / Scrum, Sprint Planning, Product Backlog Grooming, PRD / BRD / FRD, User Stories & Acceptance Criteria, Jira, Confluence, UAT Management, Roadmap Prioritization

Analytics & Business Intelligence: SQL (PostgreSQL, MySQL, CTEs, Window Functions), Power BI, DAX Modeling, Python (Pandas, EDA), Advanced Excel, KPI Tracking & Dashboards, Funnel Analysis

Technical Architecture & Testing: REST API Testing (Postman, JSON Schemas), As-Is / To-Be Workflow Modeling (BPMN), Data Mapping, SaaS B2B Systems, International Tax & E-Invoicing Compliance

PROFESSIONAL EXPERIENCE

Envision Beyond India Pvt. Ltd. — **Associate Business Analyst (Product & Delivery)** May 2025 – Present | Bengaluru, India

- Cross-Functional Agile Leadership:** Coordinated project deliverables across **5+ cross-functional teams** (Engineering, QA, Tax Compliance, Client Stakeholders) for a SaaS e-Invoicing engine across Malaysia, UAE, and Philippines.
- Sprint Acceleration & Requirements:** Reduced sprint release turnaround times by **15%** through clear PRD/BRD/FRD authoring, detailed user stories with acceptance criteria, and active backlog management in Jira.
- Product Analytics & Dashboards:** Automated SQL queries and interactive **Power BI dashboards** to track product health metrics (API error rates, latency, transaction volume), increasing reporting accuracy by **20%**.
- API Integration & UAT Governance:** Validated multi-country **REST APIs and JSON payloads** using Postman; authored test matrices to achieve **100% first-pass UAT sign-offs** with zero defect leakage.

AlmaBetter — **Data Science & Analytics Trainee** Jan 2025 – Jul 2025 | Bengaluru, India

- Exploratory Data Analysis:** Analyzed multi-dimensional datasets using **Python (Pandas, NumPy)** and **SQL** to evaluate feature engagement, customer drop-off patterns, and operational bottlenecks.
- Stakeholder Dashboards:** Designed visual reporting models and presented data-driven product insights to leadership and mentors.

KEY PROJECTS & CASE STUDIES

Customer Churn & Retention Analytics Model (Telecom) | SQL, Python, Statistical EDA, Power BI **Predictive Risk Modeling**

- Modeled **7,000+ subscriber records** with SQL CTEs and Python to identify high-risk churn signals across tenure and contracts; built an interactive Power BI retention matrix projected to reduce churn by **10%**.

Commercial Sales Performance & Product Bundling Engine | SQL, Power BI, Advanced Excel **Revenue Optimization**

- Evaluated **48,000+ transaction records** to isolate peak demand trends and top product cross-sell affinities; constructed executive KPI dashboards that improved promotional campaign ROI by **18%**.
